Budget Virement Policy

1 Objective of the Budget Virement Policy

- Provide flexibility to management of the Fezile Dabi District Municipality in managing budgets appropriated to the municipality by the respective Treasury Departments or compliant organs of state including legally approved funding from alternative sources.
- Provide clarity on approved policies and legal guidelines to managers regarding when managers may shift funds between budget votes.

2 Legislative Requirement

Section 18(1) of Municipal Finance Management Act 2003, Act 56 of 2003 stipulates that an annual budget of a municipality may only be funded from:

- Realistically anticipated revenues to be collected;
- Cash-backed accumulated funds from previous years' surpluses not committed for other purposes; and
- Borrowed funds, but only for the capital budget referred to in section 17(2).

2.1 mSCOA environment

- *mSCOA* is a business reform and requires multi-dimensional budgeting and recording of transactions across the following seven segments:
 - Project segment. The flow chart incorporate the virement principles explained above and provide guidance on how a virement should be applied in the mSCOA environment. Virement decisions should start with the project segment, if a virement needs to be done for a project, the municipality should consider whether it is a new or existing capital, operational or default project and based on the type of project, a virement is allowed or whether and adjustments budget is required.**
 - ii. Function segment. The next segment that should be considered in terms of the impact of the virement process is the function segment. If there is no change to the function segment, a virement may be done subject to the virement principles below.
 - iii. Funding segment if there is no change to the funding segment, a virement may be done subject to the virement principles below.
 - iv. Regional Segment If there are changes to the regional segment in the application of a virement, then a virement may not be done but an adjustments budget is required, because Council allocates the project and funding to a specific region. A virement may be done if it will not result in changes to the regional segment subject to the application of the virement principles below.
 - v. Costing Segment Changes to the costing segment should not affect the application of a virement.
 - vi. Item Segment: Expenditure if changes in expenditure are incurred in the capital or operational budget, the virement decision should start with the project segment. If a virement is allowed, it will be subject to the application of the virement principles below.

An example of a change taking place in the capital budget is when the nature of the project may change from “outsourced” to an “own account” project which will result in a different selection of accounts from expense accounts within the item classification for Construction Work-in-progress.

FEZILE DABI DISTRICT MUNICIPALITY

Budget Virement Policy

- vii. Item segment: Revenue if changes in revenue type change either in the Capital or Operational Budget. First start with the Project and apply the change to all the segments and should the Virement be allowed refer to The Virement Principals before applying the Virement.
- When a municipality review its virement policy, it must consider the implications of possible mSCOA segment changes taking place because of the virement (the moving of budgetary allocations within a function or its sub-functions). If virement result in a mSCOA segment change, by adding a new project, changing the region or funding source, it is not allowed. Such a shifting of budgetary allocations may only be done through an adjustments budget and not through the application of a virement.

3 Virement Principles

The following authorised principles apply in dealing with virements of budgeted funds:

- a) Virements are not be permitted in relation to revenue;
- b) Virements from the capital budget to the operating budget are not be permitted;
- c) Virements towards personnel expenditure are not be permitted;
- d) Virements to or from the following items are not be permitted:
 - bulk purchases;
 - debt impairment,
 - interest charges;
 - depreciation,
 - revenue foregone,
 - insurance,
 - Value Added Tax (VAT),
 - Ring-fenced allocations, and
 - Statutory Funds
- e) Virements must not result in adding 'new' projects to the Capital Budget;
- f) Virements of conditional grant funds for purposes outside of that specified in the relevant conditional grant framework are not be permitted (DORA);
- g) Virements must not be made where it would result in over expenditure; and
- h) Virement amounts shall not be rolled over to subsequent years, or create expectations on the subsequent budgets.
- i) Virement from and between capital assets already approved by council is not allowed.

Budget Virement Policy

4 Management of Transfers and Virement Processes

Virements between votes shall be permitted where the proposed shifts in funding facilitate sound risk and financial management;

Permissible budget transfers and virements shall be recommended by the Senior Manager (Head / Director of Department), by completing the appropriate documentation and forward to the Chief Financial Officer or the Accounting Officer in the case of the application by the Chief Financial Officer for approval.

All the necessary documentation for virements requests must be signed for by the relevant Head / Director of the Department within which the vote is allocated.

Heads / Directors of departments are not allowed to utilise a saving in the amount appropriated under a main expenditure category (e.g. General Expenses, Repairs & Maintenance, etc.) within a vote which is under their control towards the defrayment of excess expenditure under another main expenditure category within the same vote.

The amount of a saving under an expenditure category of a vote that may be transferred to another expenditure line item shall not exceed (10%) ten percent of the amount appropriated under that expenditure category and shall be limited to R50 000.

No virements recommendations or proposals shall be considered in the first three months of the financial year, unless in an emergency situation as stipulated in this policy. Virements resulting in adjustments to the approved Service Delivery and Budget Implementation Plan (SDBIP) must first be submitted to the Budget Steering Committee for consideration and then be submitted with an adjustments budget to the Council with altered outputs and measurements, and must indicate changes to the (SDBIP), and the impact that this will have on the performance objectives as set out in the municipality's Integrated Development Plan (IDP). Where virement is likely to impact on the planned Asset Management output as set by the Asset Management Steering Committee, it must be submitted to the Asset Management Steering Committee.

In cases of emergency situations virements shall be submitted by the Accounting Officer to the Executive Mayor for authorisation and be reported by the Executive Mayor to Council at its next council meeting following the occurrence of emergency

All expenditure resulting from approved virements must still be subject to the prescribed procurement processes as contained in the municipality' approved supply chain management policy.

Transfers or adjustments falling outside the ambit of this policy must be dealt with within the budget adjustment process in terms of section 28 of the Municipal Finance Management Act (MFMA).

5 Shifting Of Funds between Multi-Year Appropriations

When funds for a capital programme are appropriated in terms of section 16(3) of MFMA for more than one financial year, expenditure for that programme during a financial year may exceed the amount of that year's appropriation for that programme, provided that :

- a) The increase does not exceed 20 per cent of that year's appropriation for the programme;
- b) The increase is funded within the following year's appropriation for that programme;
- c) The municipal manager certifies that actual revenue for the financial year is expected to exceed budgeted revenue; and sufficient funds are available for the increase without incurring further borrowing beyond the annual budget limit;
- d) Prior written approval is obtained from the mayor for the increase; and
- e) The documents referred to in paragraphs (c) and (d) are submitted to the relevant provincial treasury and the Auditor-General.

Where a capital asset has been budgeted for over multiple years in terms of MFMA, the municipality shall plan for the funding needed for every financial year of the project to ensure its financial sustainability.

FEZILE DABI DISTRICT MUNICIPALITY

Budget Virement Policy

In cases where capital appropriations are unable to be spent during the allocated financial year, the projected roll-overs shall be included as part of the adjustment budget within the framework of section 28(2)(e) of MFMA or the Chief Financial Officer shall provide for an adjusted capital appropriation as part of the next annual budget.

Prior to shifting of funds, the Municipal Manager must obtain written approval from the mayor for the increase; and he must submit to the Provincial Treasury and the Auditor-General the certification that actual revenue will exceed budgeted revenue and that sufficient funds are available for increase without incurring further borrowing beyond the annual budget limit.

6 Reporting

The Chief Financial Officer shall report to the Accounting Officer on all the virements, and the Accounting Officer shall, within ten working days of the end of each quarter, report to the Executive Mayor on those virements that have taken place during that quarter for the financial year concerned.
